1. **TO PROVIDE** our customers with **A QUALITY SERVICE** that meets their needs and exceeds their expectations, that achieves their full satisfaction by meeting all their requirements, and that allows us to consolidate their trust and loyalty.
2. **To consolidate our level of EXCELLENCE**, providing the organisation with the necessary resources to improve the quality of the management of our operations, prioritising the identification and analysis of the context, risks and opportunities, innovation and technological development, fostering the safety of merchandise and facilities and the integrity of the transported goods, establishing objectives and goals that reinforce our process of **continuous improvement**, and preserving business continuity
3. **TO PROTECT THE ENVIRONMENT** by committing to a **SUSTAINABILITY** philosophy that helps prevent pollution and minimise potential environmental impacts, from a Life Cycle perspective;
 - To be part of the **fight against CLIMATE CHANGE**, aligning ourselves with the Sustainable Development Goals (SDGs), **reducing our energy consumption** and offsetting our **CARBON FOOTPRINT**, in order to achieve a gradual reduction in the impact generated by our CO₂ emissions; committing to align our sustainability goals with science-based goals initiatives (SBTi);
 - To carry out **responsible management of NATURAL RESOURCES** that fosters the reduction of consumption and water quality, and that protects the biodiversity and ecosystems of our environment and deforestation;
 - To carry out responsible use and **management of CHEMICAL SUBSTANCES**, in order to avoid affecting ecosystems, as well as possible damage to health;
 - **To reduce the generation of WASTE**, through reuse and recycling, promoting the use of recycled materials in the consumption of raw materials, packaging and supplies, in all our logistics operations;
 - Commit to **the transition in the use of renewable energy**, progressively reducing the use of non-renewable energy sources in our operations and logistics activities.
 - Reduce our environmental impacts, control and reduce our **acoustic emissions**, as well as guarantee the **quality of the soil**.
4. To ensure **SAFE AND HEALTHY WORKING CONDITIONS**, to prevent injuries and damage to health, such that the worker is given the authority, without prior consultation with higher positions, without recriminations, or sanctions by the company, to stop work if he/she believes that there may be an imminent danger, for him/her and/or his/her colleagues, during the execution of the work (Stop-Work policy)
5. **TO PROMOTE THE ACTIVE PARTICIPATION OF ALL OUR EMPLOYEES AND COLLABORATORS**, through information, training and awareness, to achieve the established objectives
